HANDLING TIPS **TIPS**

TIPS FOR HANDLING THE DECOLAM ACRYLIC BOARDS

- DO NOT use thinners on the board at any stage.
- On Metallic colours, always align panels according to arrows on protective film..
- DO NOT remove the protective film from the board or edging until after installation..
- Once the protective film has been removed from the boards, polish with acrylic enhancing car polish (eg. Rally).
- Wipe only with very weak solution of soapy water when necessary (no other cleaning agents)

BOARD **CLEANING** TIPS

Decolam products can be cleaned by simply using a wet microfibre cloth or chamois with non-abrasive soap.

- ✓ Clean clean wet microfibre cloth
- ✓ Clean wet chamois
- ✓ Non-abrasive soap & detergent
- ✓ Warm water
